

### **Acknowledgments**

I would like to thank the members of my committee for their valuable comments. I would especially like to thank Professor Rosalie Murphy Baum, who years ago inspired me to major in English and, later, to pursue graduate studies. This thesis would not have been possible without her guidance, encouragement, and seemingly inexhaustible well of patience.

I would also like to acknowledge the support of my husband, Travis, who read *The Damnation of Theron Ware* so that I might have someone with whom to discuss my thoughts on the novel at odd hours.
